

## Crossroads RMC Web/Business Systems Developer

**Title:** Web/Business Systems Developer

**Reports to:** Consulting Manager

**Location:** Lisle, IL

### Company Description:

Crossroads RMC is a small, well-established Chicago-area firm providing IT and business-system support to small- and medium-size manufacturers, nationally and internationally. We have a loyal customer base for our high quality products and services with a good reputation industry wide. We are currently experiencing a high level of growth in existing and new markets and are looking to expand our product offerings.

### Description of Responsibilities:

- Develop web-based and/or mobile applications and interfaces to ERP systems
- Develop business systems solutions in specific ERP systems
- Work with project and product managers to create requirements documents and specifications
- Analyze customer and market requirements, and define solutions/products based on those requirements
- Perform unit testing and system testing, as required
- Create user documentation for products
- Provide first-level support to customers
- Limited travel as needed

### Required Qualifications:

- BS in Computer Science, or equivalent
- 1+ years of experience as a Programmer Analyst, Web Developer, or similar role
- 1+ years of SQL programming experience
- 1+ years web programming experience in ASP.NET (C# preferred)
- Solid experience with XML, SOAP, MVC, web services, HTML, and CSS.
- Business systems/ERP and/or E-Commerce experience a big plus
- Mobile applications development a plus
- Experience with SQL Server preferred
- Good analytical, written and oral communications skills
- Strong problem-solving skills

### We Offer:

- Competitive salary and vacation
- Medical, dental, and vision coverage
- 401(k) with company contributions
- Profit sharing
- Flexible spending account
